THESE TIPS  
TO CREATE  
A BEAUTIFUL  
PAIRING  
EVERYTIME

# Follow colour trends

## OPT FOR GREY OR YELLOW IN 2021

Look forward in colour trends to determine what customers will want. Pantone releases next years colour trends before the year is up and they're forecasting bright yellow and grey.

Try some bright yellow tones using our new DiamondCast or Poly Resin blanks.

# Pair ornate kits with simple blanks

## MAXIMIZE THE EFFECT

If you've got a highly embellished or two-tone kit, let it speak for itself by pairing it with a simple blank or wood with low figuring.

AMARELLO,  
BLOODWOOD  
OR HOLLY

# Pair simple kits with acrylics

## REACH MORE CUSTOMERS

Opt for a low key kit design and an acrylic to create a finished product in a lower price bracket. Having a wider offering for your customers means you can reach more potential buyers.

# When in doubt, choose Chrome

Chrome always has been and remains to be our most popular plating. If you're set on a kit design but you're having trouble selecting your plating, you won't regret choosing chrome.

It's also one of the most durable, long-lasting platings!
